

Science Program Support for a Long-Term EWA

Zach Hymanson

Science Program Aims

- Maintain a structure supporting peer review and transparency.
- Maximize impact of external review.
- Maximize relevance of research and analyses.
- Apply common science practices to all EW programs.

Science Program Support

- Continue Lead Scientist leadership.
- Continue involvement of the Science Advisors.
- Develop a research agenda.
- Disperse funds for research.
- Organize annual workshops and biannual reviews.
- Help to establish information conduits with policy makers.
